

ANGLE FACE PLATE

Description

Unlike the old days where communication face plates are white and thick, RFI/T&J Angle Face Plate frees you from this predicament. With its ultra-slim profile, different colours and inter-changeable frames, it blends in with the surrounding design of your environment. Made of Polycarbonate material, it has excellent impact resistance and heat resistance.

Application

- Fit RFI Voice and Data Jack

Features

- Ultra-slim profile (5mm depth)
- Polycarbonate material
- High Impact Resistance
- Variety of lacquered colours with gloss or matt finishes
- Easy replaceable frame
- Six colours: White, Silver, Champagne, Charcoal, Black
- Other colours available upon request

Standard and Compliance

- Europe/UK 86mm x 86mm
